Simplus provided construction management and QA services for the Traffic Rerouting Project at the FRB Landfill in Irvine, California for Orange County Waste & Recycling. The work included unclassified excavation, demo of existing improvements, construction of a gravity block retaining wall, subgrade preparation, construction of curb, gutter and sidewalk, an aggregate base course and AC paving. The work also included signing and striping. Construction management services included managing and coordinating the efforts of a general contractor, numerous subcontractors, OCWR staff, regulatory agencies, design consultants, CQA consultants and adjacent construction contractors.

- PCC Sidewalk – 1,800 s.f.
- AC Pavement – 1,014 Tons
- Aggregate Base Course – 2,000 Tons
- Unclassified Excavation – 1,000 c.y.
- Gravity Block Retaining Wall – 900 s.f.
- Soil Preparation and Fine Grading – 42,250 s.f.
- Concrete Curb and Gutter – 750 l.f.
